Stimulating areas have been created such as a walking or jogging lane for exercise, a yoga area, meeting space or reading and homework corner, as well as a fitness centre, 40-metre long swimming pool and an area for celebrations or entertainment. The designers have selected species of plants that are most suitable for the project to enhance a good quality of life. Plants have been chosen to create an ambience in each zone replicating the nature of different regions such as a riverside zone, an area representing an open plain, a high plains area and a mountainous forest zone, for instance.

With the project situated so close to the BTS, Chatuchak Market and Public Park, the designers view the importance of connectivity (Linkage) with the vicinity as paramount in fostering a good quality of life, creating a route linking various points in the above-mentioned important locations and an atmosphere that is pleasant to look at and safe.
