With a location that has such heavy traffic, it is
fortunate the project is so close to the BTS to
provide a fast and efficient mode of transportation,
with which your easy conveyance to other parts of
Bangkok and the surrounding areas is assured. This
is in line with how the urban way of life has
developed and the designers of the project have been
motivated by this ecosystem of connectivity, whilst
still keeping safety, attractiveness and the daily
routine of consumers at the forefront.

The textures of materials were selected during the
design process to communicate regional landscapes
that depict rail travel as the ultimate rapid
transportation method, which can take you to
multitude locations with varying scenery, perfectly
complimenting the project's location as it is so
reliant on the train for travel purposes and resident's
desires for mobility and convenience. This will help
improve the variety of uses in each area. View less
